DOGS NSW Regulations Part II-Show, Section 14: Disqualification from Exhibition, Clause 14.10

Such meeting must be conducted by the Show Committee notwithstanding the nonavailability of any party to the inquiry.

(ii) The owner, handler or person having the care and control of the dog at the event shall identify that dog to the Show Committee. For the purposes of this clause “identify” means provide appropriate information including the DOGS NSW registered name and number.

(e) As soon as possible after reaching its decision, the Show Committee shall advise the person who appears to be responsible for the care and control of the dog, either that the dog has been declared aggressive or that it has not been declared aggressive and provide them with a copy of the Aggressive Dog Incident Report form after it is signed by that person.

GUIDELINES FOR SHOW COMMITTEES WHEN DEALING WITH AGGRESSIVE DOGS

Due to the increased awareness of the general public to dog attacks there has been a necessity for DOGS NSW to implement Regulations to attempt to overcome the incidence of dog attacks at shows.

We are all aware that on a showground where a large number of dogs gather there will always be incidents of dogs being aggressive toward one another especially in the terrier, guarding and hunting breeds.

Notwithstanding, this natural tendency of dogs to fight must not be used as an excuse for an overly aggressive temperament or a dog which continually or without reason attacks. This type of animal must be reported and steps taken to improve its behaviour.

The question of a dog which bites a person is of far greater concern. Members must be made aware that under the NSW Companion Animals Act, the owner of a dog who attacks a person is liable to hefty fines, possible declaration of their dog as a dangerous dog, as well as possible seizure and destruction of their dog. Show Committees because of their authority at shows must accept the responsibility of taking all actions possible to lessen the chance of attacks. If one does occur they must report it diligently. Some of the actions which the Regulations allow you to implement to lessen the chance of an attack are:

1. 1. Ensure that a clear two metres pathway is kept around all rings.
2. 2. Have a designated assembly area for each ring and only allow the breed being judged into that area.
3. 3. If possible, when setting up your rings, have separate entry and exits. If not possible ensure that the Stewards control the gateway so only one class is trying to use it at a time.
4. 4. Ensure that dogs if they are tethered have a responsible person with them at all times
5. 5. Ensure the exhibitors do not exercise dogs on retractable leads or off lead while the show is in progress.
6. 6. In extreme cases where exhibitors are seemingly guilty of misconduct, as defined in Regulations Part II - Show 16.1, the Show Committee has the authority to implement the following related Regulation: 16.2 A person who contravenes Regulation 16.1 may be cautioned by an official of the Show. If thereafter he again contravenes Regulation 16.1, he may be requested by an official to leave the Showground (and to remove any exhibit thereon) and, if so requested shall leave forthwith. 06/07
7. All these measures are common sense but if Show Committees implement them the number of incidents will decrease considerably.

AN ATTACK OCCURS AND IS REPORTED

If an incident occurs at a show and is reported, the Regulations require your Show Committee, as soon as possible after the report, to conduct an investigation. The inquiry must be held irrespective of whether any relevant party has left the grounds.

Immediately the owner, handler or person having the care and control of the dog is advised that an aggressive dog inquiry is to be held, they should immediately ensure that the dog concerned is placed in a secure situation such that any aggressive behaviour does not interfere with any other person or dog.

Prior to the inquiry commencing, the Show Committee shall obtain from all relevant persons and witnesses still on the showground, a written statement of what occurred in the incident. The statements of the two principal parties must be made available to each other so they may prepare to question the other's statement during the inquiry.

The Show Committee must consist of three Show Officials excluding officiating Judges and must not include the DOGS NSW Representative. At an Agricultural show the Show Committee shall consist of three of the persons nominated as the Dog Section Committee on the Show application.

Note: Show Officials is defined in the Constitution as "all Judges, Stewards and similar Officials engaged in the administration of the show in question and includes the members of any Show Committee".

From among its three Members, the Show Committee shall elect one of its members to be Chairman.

CONDUCT OF INQUIRY

Apart from the Show Committee, the complainant and owner or handler of the dog complained of must be permitted to be in attendance at all times excepting during deliberation of the Committee's decision.

Other witnesses should only be present when called to present their evidence.

The Chairman shall introduce all parties at the investigation and in particular the members of the Show Committee.

The Chairman shall initiate the investigation with the following statement:

"This investigation is to examine an alleged incident that the dog ' ' acted aggressively in that it

The inquiry must look at all evidence relating to the incident but only to that incident, comments like "he's been having a go at everything all weekend" or "he's always like that" are not relevant, and must not be allowed. The person making the report must give evidence as should all witnesses, where possible in writing. The owner or person responsible for the dog must be permitted to be in attendance at all times and must be allowed to question witnesses, make statements, and generally defend his dog.

DECISION

He/she must be excused while the Show Committee deliberates its decision. The Show Committee must take into account any provocation which occurred. If a person teases or torments the dog, or acts cruelly towards it, it would be seen as provocation. Equally if a dog were to attack, or enter an area that a second dog would normally be expected to defend, this could also be seen as provocation; which must be considered in each case before a dog is declared aggressive. Similarly, if another dog attacks or threatens the dog, his owners, or the owners property this would also constitute provocation, and the dog would not automatically be declared aggressive.

Notwithstanding, these type of actions are not to be allowed in the judging ring or an assembly area. If a dog is to be exhibited it is expected to be adequately trained and calm enough to stand in a class and be handled by the Judge without aggressiveness.

Once the Show Committee has heard all the available evidence it must make a judgement as to whether the dog was aggressive or not. The principal parties must be advised of the decision forthwith and the reasons for that decision.

Upon completion of an inquiry, the Aggressive Dog Incident Report form must be completed and signed by the owner or person in charge of the dog who is to be provided with a copy of that form at the time.

IF DOG FOUND AGGRESSIVE

- i. the owner, exhibitor or handler responsible for the dog, shall ensure that the dog is retained in the same secure situation in which it was placed for the duration of the inquiry and until such time as it is ultimately removed from the showground.
- i. the dog shall ipso facto be suspended for a period of two months and for such further period until the Board of Directors have made their decision in accordance with 14.10 (i). During that period the dog shall not be allowed to enter or remain upon any showground.
- i. If for any reason the Board of Directors has not finally dealt with the matter within the 2 month period of suspension referred to above, the owner of the dog may make written application to the Board of Directors for the removal of the suspension.

IF DOG NOT FOUND AGGRESSIVE

Although there is no immediate action taken against a dog following a finding by the Show Committee that the dog was not aggressive, the matter is not finalised until such time as the Board of Directors review the case in accordance with Regulation 14.10 (i) and make the determination required.

WORKSHOP

An incident has been reported ringside at the Utility ring.

Incident report by owner of male Samoyed 200006666 Jill Smith
Member No. 2100000002 against male Bullmastiff 200005555
Owned by Joseph Brown Member No 2100000012

Show Secretary has been advised and has found Group Specials had just commenced.

Today while I was waiting to be called in for General Specials. I walked around so I could watch the ring and could be on the grass as I have a Samoyed. I believe I was far enough away and had my dog on a short lead. We were standing near the ring when a male Bullmastiff lunged at my dog. I pulled him away but the Bullmastiff bit my dogs face and then bit my leg. My dog has a small puncture and blood near his eye and my leg may need stitching.

Jill Smith

Member No. 2100000002

I was standing outside the Utility ring at 11.30am with my Bullmastiff waiting to go in for Best In Group Judging. I was facing the ring with my dog on a short lead. There was a growl from a Samoyed near me and it suddenly launched itself at my dog. I had my dog on a short lead and pulled him towards me but the other dog kept coming. It was on a long lead and snapped at my dogs legs, my dog did growl and open his mouth but did not make contact. My dog did not come close to the handler of the other dog. The handler was using a lead with lots of beads on it and it wrapped around her legs. My dog has a tear on his leg from the attack.

Joe (Joseph) Brown Member No 2100000012

I was standing at the side of the Utility ring watching the judging of Group when I heard growling from two dogs. As I looked down both dogs were tangled together with their leads.

The Bullmastiff owner yelled at his dog to stop and moved backwards but the Samoyed followed. It was on a slack lead and the owner had no control. The Samoyed owner said she had been bitten on the leg – but I only saw contact between the dogs and nothing with any person.

Sirius Black Member 200000027

Today at our local Championship Show I witnessed an incident involving an attack by a male Bullmastiff on a Samoyed and its owner.

I was standing about 3 metres away admiring the Bullmastiff who was at the ring corner and about 2 metres away was the Samoyed on a long fancy lead with its back to the Bullmastiff. The Samoyed turned around and looked towards the Bullmastiff who then lunged and grabbed the Samoyed on the face and then bit the handler of the Samoyed on the Leg whilst she was trying to help her dog.

I was frightened to help as the Bullmastiff was being really aggressive.

To Whom it May Concern

I am an exhibitor at Local Championship show today.

Whilst waiting ringside at the Utility Ring I saw a Bull Mastiff waiting to go into the ring and another person walking a Samoyed close to the Bullmastiff.

I witnessed the Samoyed lunge at the Bullmastiff and it retaliated biting the Samoyed.

Henry Potter

I write in support of Joseph Brown's Bullmastiff Jack. I often help Joe with his dogs at shows and have handled Jack on numerous occasions. He has a really steady nature and has never even thought about being aggressive. Not only does he attend many shows he also does obedience and has obtained a CD Title. Joe is always very careful with his dogs, has them on short leads and ensures there is always a good amount of room between other dogs. I am sure Jack is not a fault.

Yours Sincerely

Alice Green.
